9 Compensation Policy

As per the RBI Guidelines issued on April 29, 2022, following parameters will also be considered for the compensation of Key Managerial Personnel and Senior Management (excluding Non-Executive Directors) effective April 1, 2023 (for FY 2023-24 onwards).

Infradebt has historically followed prudent compensation practices under the guidance of the Board of Directors and the BGRNC. Infradebt's approach to compensation is intended to drive meritocracy within the framework of prudent risk management. Compensation is linked to business performance and individual performance. The current variable pay scheme is designed to reward employees based on holistic assessment of performance and does not constitute profit sharing. The principles for sound compensation practices will continue to be practiced by Infradebt and these principles are as follows:

9.1 Governance of Compensation:

The BGRNC has the oversight over framing, review and implementation of Infradebt's Compensation Policy on behalf of the Board. The BGRNC will be composed of at least three members, and all its members will be non-executive Directors out of which not less than one-half will be Independent Directors. At least one member from the Board Risk Management Committee of the Board of Directors will also be a member of the BGRNC.

The BGRNC will define Key Performance Indicators (KPIs) for the Managing Director & CEO based on the financial and strategic plans approved by the Board. The Managing Director & CEO and Head of Human Resources will be responsible for execution of the compensation strategy, practices and plan (covering both fixed pay and variable pay) for the rest of the employees (including Senior Management and KMP) in line with the Compensation Policy.

The BGRNC will recommend fixed pay, perquisites, retires, variable (including performance bonus and ESOPs) for the Managing Director & CEO to the Board for approval.

Policy for selection and appointment of Directors & Officials in Senior Management, Their Remuneration and Remuneration of Other Employees

The BGRNC will ensure that the compensation levels are supported by the need to retain earnings of the Company and the need to maintain adequate capital base on Internal Capital Adequacy Assessment Process (ICAAP). The BGRNC may also ensure 'fit and proper' status of proposed/existing directors and that there is no conflict of interest in appointment of directors on Board of the Company, KMP and Senior Management.

9.2 Principles of Compensation:

9.2.1 Components and risk alignment:

The Compensation of Key Managerial Personnel (KMP) and Senior Management will be as per the statutory requirements and industry practices. The total compensation will be a prudent mix of fixed pay and variable pay. To ensure effective alignment of compensation with prudent risk taking, the BGRNC will take into account adherence to the risk framework as per the financial plan/ targets. The variable pay payout schedules will be sensitive to the time horizon of risks. It will be a mix of Cash (performance bonus) and ESOPs for Senior Management.

9.2.2 Composition of Fixed Pay:

Fixed pay will include basic pay, function pay, allowances, perquisites, contribution towards superannuation/ retirals and any other form of benefits including reimbursable perquisites with monetary ceilings.

9.3 Principles for Variable Pay:

9.3.1 Composition of Variable Pay:

The variable compensation will be in the form of cash or a mix of cash and share-linked instruments (including ESOPs).

9.3.2 Proportion:

The Key Performance Imperatives (KPIs) of the Senior Management and KMP are defined at the beginning of the performance measurement period. The variable pay is based on the performance of the individual based on these KPIs. At higher level of responsibility, the proportion of variable pay (including stock options) is higher. The variable pay can be reduced to zero based on the performance at an individual and Company level. There should be a proper balance between cash and share linked instruments in the variable pay for the Senior Management. Performance measures and their relation to remuneration packages should be clearly defined at the beginning of the performance measurement period to ensure that the employees perceive the incentive mechanism.

9.3.3 Deferral of Variable Pay:

All share linked instruments (stock options) which are a sizeable portion of the variable pay of the Senior Management will be under deferral arrangement

Policy for selection and appointment of Directors & Officials in Senior Management, Their Remuneration and Remuneration of Other Employees

(deferment) and are not paid/vested immediately. The cash variable (if higher than Rs. 2.5 million per year) would also be deferred in a suitable manner. The deferral of cash variable would be applicable for the compensation plan for the financial year beginning April 1, 2023 onwards. The non-cash deferral period would be spread over a minimum period of three (3) years (deferment period). The frequency of vesting will be on annual basis and the first vesting shall not be before one year from the commencement of deferral period. The vesting shall be no faster than a prorata basis. Additionally, vesting will not be more frequent than on a yearly basis. In case of employee's death or permanent disability, whole of the deferred variable pay (Cash and stock options) shall immediately vest in the employee's successors, or the employee, as the case maybe.

9.3.4 Control and assurance function personnel:

The compensation of Senior Management and KMP engaged in control functions including Financial control, Risk Management, Compliance and Internal Audit will depend on their performance rating which is based on achievement of key results of the respective functions and independent of the business areas they oversee. Infradebt follows a broadly consistent rewards practice across business and control groups. However, there is a reasonable proportion of compensation in the form of variable pay, so that exercising the options of malus and clawback, when warranted, is not rendered infructuous.

9.4 Guaranteed bonus:

Guaranteed bonuses are not consistent with the principles of meritocracy and Infradebt will not encourage any kind of guaranteed bonus. Joining or sign-on amount will occur in the context of hiring a new staff and will be limited to first year.

9.5 Malus/Clawback:

Infradebt is in the business of providing long term financing to the Infrastructure sector. Infradebt believes in long term sustained business performance within a prudent risk taking framework. In line with this approach, from 2018 onwards, a long term (over three years) long term cash incentive scheme for the senior management was replaced by an Employee Stock Option Scheme (ESOP) which further aligns the long term interest of all stakeholders.

Accordingly, a significant part of the compensation for the Management Committee members (including the MD&CEO) comprises stock options (of unlisted equity) which vest over a period of time. The existing ESOP scheme has adequate safeguards for termination of ESOPs in case of termination for Cause. Accordingly Malus is already covered under the existing ESOP scheme. As a general rule, Clawback would be applicable only to the vested but unexercised options.

Additionally, a Clawback Arrangement is now being proposed which would entail return of payout of reward (variable pay) made in the previous years attributable to a given reference year wherein the incident has occurred. Any such return would be of a net amount which has been received by the employee (post

Policy for selection and appointment of Directors & Officials in Senior Management, Their Remuneration and Remuneration of Other Employees

tax).

Illustrative list of conditions which would trigger a Malus or Clawback is detailed below:

- a. Substantial financial deterioration
- b. Actions which are reckless, negligent or wilful
- c. Material financial restatement due to fraud
- d. Reputational harm
- e. Exposing Infradebt to substantial risk
- f. Any other act detrimental to Infradebt interest including and not restricted to violation of Infradebt Code of Business Conduct and Ethics and failure to discharge fiduciary and regulatory duties.

Error of judgement will not be construed to trigger Malus/Clawback.

The time horizon for the application of Malus/Clawback would be three years from the date of reward. The BGRNC would review the act of misconduct/incident to ascertain the degree of accountability attributable to a Director or employee prior to finalizing the Malus or Clawback arrangement. Due process including inquiries or investigations as required and/or adherence to principles of natural justice will be ensured prior to conclusion on the above mentioned breaches.

The BGRNC will review the criteria for Malus/Clawback on an annual basis.

In line with RBI guidelines, Malus/Clawback arrangements under this Policy are only applicable to the MD&CEO, the other members of the Management Committee (including the Chief Risk Officer, Chief Financial Officer, Head of Assets and Head of HR) and the Company Secretary and Compliance Officer.
